"Ever Exciting,
Never Boring"

SGS

SUPER GLOBAL SCHOOL

WHAT IS SGS?

A program that strives to provide outstanding English education to every student through:

TEAM TEACHING

between Japanese Homeroom teachers (HRTs) and Assistant Language teachers (ALTs) working closely to create an effective and enjoyable learning experience;

GOAL-ORIENTED CURRICULUM

that focuses not only on the language development of the students, but social, practical, and lifelong learning as well;

DYNAMIC APPROACH

in introducing strategies and redefining teaching tools to cater students' needs especially in an ever-changing environment. Focusing on necessities of students and taking them beyond the walls of a typical classroom, and embracing change.

SGS BELIEVES THAT NO CHILD SHOULD BE LEFT BEHIND.

OUR TEACHERS

are dedicated and trained professionals in nurturing and guiding students throughout their learning journey, and helping them to prepare for realizing their dreams.

The SGS multifaceted ALTs were able to respond to the sudden shift to online education caused by the current covid19 pandemic. English lesson videos and online summer school program were created to allow the students to continue their English education at home.

OUR STUDENTS

learn to cultivate core skills in language acquisition and development such as speaking, listening, reading, and writing skills. They work independently as well as in small groups to promote self-awareness, cooperation and discovery.

OUR AIM

The students can:

Produce a 3-minute self-introductory presentation in English about themselves, their likes, family, friends, hobbies and others;

Improve speaking, listening, reading and writing skills necessary in passing the EIKEN 3rd grade.
